

# cooperative city IN QUARANTINE #13 SOCIAL INCLUSION

In these hard times, we are facing globally challenges that scare us, that make us feel lonely in the isolation of our homes.

Yet this is the time to gather forces and find common solutions. People throughout Europe are finding the strength to develop solidarity and collaborative initiatives that can help us get through. Cooperative City in Quarantine aims at sharing these stories with you, to open a space for dialogue and reassure ourselves we are not alone in this.

The lockdown made the inequalities in our societies boldly visible.

What are the biggest challenges that vulnerable citizens are facing?

Which of these are new and which have been radicalised by the crisis?

What are the emerging issues that we need to find better solutions to?

What kinds of financial support and solidarity structures are needed to truly socially include every member of the society?

## Moderators:

Bahanur Nasya & Daniela Patti (*Eutropian*)

> Facebook LIVE: @cooperative city

> Friday, 12 June, 17:00 CET
